KRKL

ARCHITECTURE

System architecture

How the Plusquam staging environment is put together.

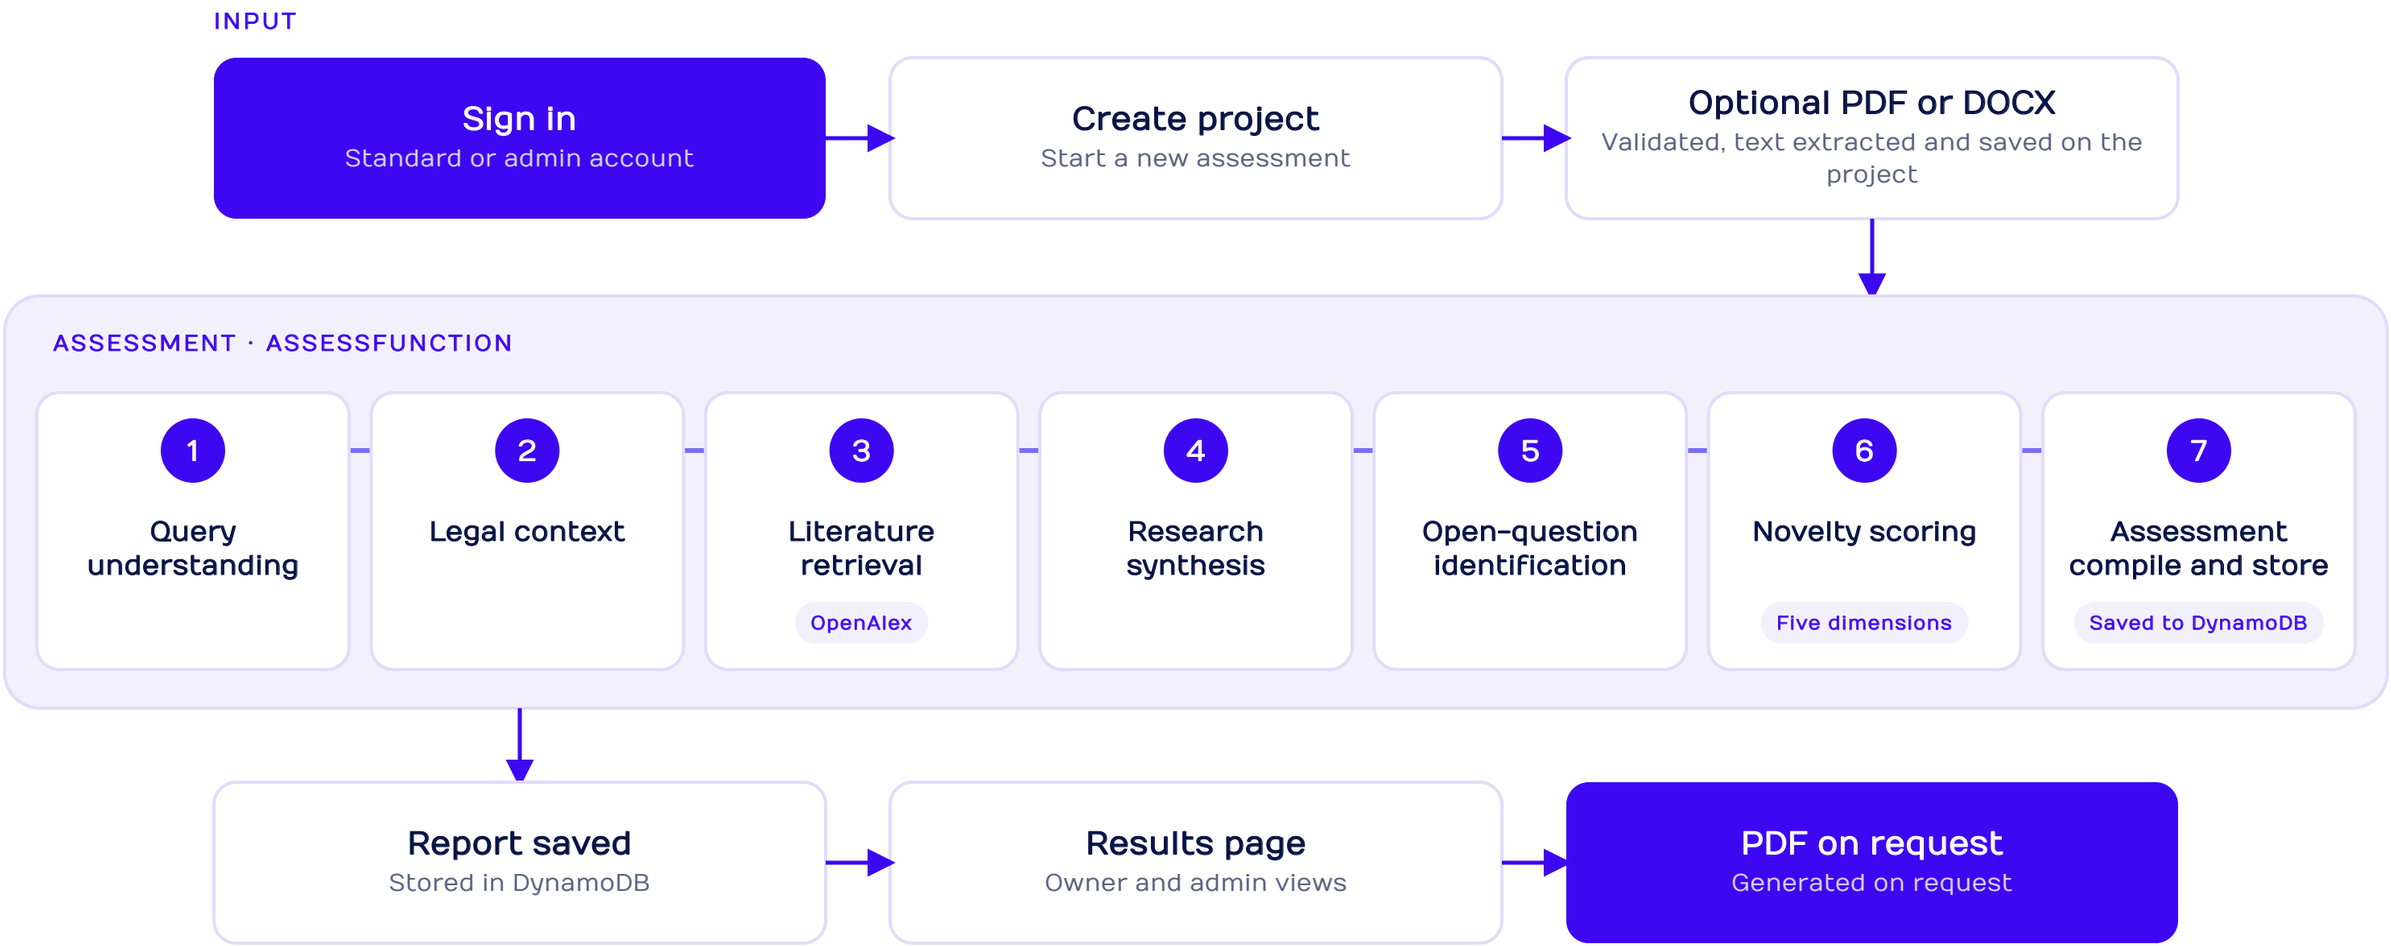

Dashed outline = external service

KRKL

DATA FLOW

Data and request flow

From a new project to a finished report.

Qwen and literature search

AssessFunction calls DashScope qwen-plus (temperature 0.3). Literature comes from OpenAlex.

Uploaded files

The original file is not stored. Only the extracted text is saved on the project record.

KRKL

SECURITY

Security posture at a glance

All nine findings fixed and verified on staging.

9/9
findings fixed

11/11
checks passed

0
known dependency vulnerabilities

4
alarms monitoring the system

FINDINGS BY SEVERITY

High 1 · Medium 4 · Low 4

11 CHECKS, ALL PASSED

- Authentication
- CORS allowlist
- Session revocation
- Unapproved origin
- Role enforcement
- Browser secret check
- Login rate limit
- Security scan (ZAP)
- Cross-user access
- Data at rest
- S3 lockdown

DATA PROTECTION AND SCAN

AES256	Both S3 buckets, public access blocked
KMS	Projects, assessments and users tables
PITR	Point-in-time recovery on all three tables
ZAP	0 High · 0 Medium · 0 Low alerts

FINAL STATUS

All nine findings are fixed and verified on staging. Access control, rate limiting, upload rejection, data encryption, scans and alert delivery all passed.

KRKL

UAT RESULTS

UAT results dashboard

Every scenario was run on staging with synthetic test data.

12	0	None recorded
scenarios passed	scenarios failed	defects

12 of 12 passed

UAT-01 PASS
Sign in and reach the workspace

UAT-02 PASS
Create a new project

UAT-03 PASS
Upload and read a valid document

UAT-04 PASS
Run an assessment and follow progress

UAT-05 PASS
Qwen returns a usable assessment

UAT-06 PASS
Review the results page

UAT-07 PASS
Find a project in History

UAT-08 PASS
Download the report PDF

UAT-09 PASS
Review admin records and actions

UAT-10 PASS
Check incomplete and unsuitable input

UAT-11 PASS
Prevent accidental duplicate runs

UAT-12 PASS
Qwen integration and quality check

KRKL

ROADMAP

Roadmap and timeline

Staging milestones and delivery.

COMPLETE

Security audit and fixes

- 9 of 9 findings fixed
- 11 of 11 security checks passed
- ZAP baseline scan passed

COMPLETE

User acceptance testing

- 12 of 12 scenarios passed
- Standard and admin accounts
- Synthetic test data

COMPLETE

Qwen integration review

- qwen-plus configured on staging
- Assessment returned visible results
- Integration check passed

BY END OF OCTOBER

Evidence Hub and Visual Pack

- Evidence Hub on a single link
- Visual Pack: five visuals, PNG and SVG
- One shareable PDF bundle

STATUS

Security audit, UAT and the Qwen integration review are complete on staging.
